MEET THE TEAM

JAMIE LANDRY - PRESIDENT

Passionate, driven, and dedicated, Jamie is an entrepreneur known for out-of-the-box thinking and custom solutions to complex problems. With a wealth of construction expertise spanning 20 years, he has played pivotal roles in diverse projects, from groundbreaking Concrete developments to intricate renovations.

With an MBA that complements his vast real-world experience and hands-on proficiency, Jamie brings a unique blend of practical insight and strategic vision to every endeavour. As a leader, he seamlessly integrates business intelligence with construction finesse, driving success and innovation in the dynamic realm of construction.

FRANK BENDA - VICE PRESIDENT

Frank navigates complex projects seamlessly, ensuring precision and innovation at every step. Under his guidance, The Concrete Doctors has consistently delivered amazing results to their customers. A visionary with a hands-on approach, Frank enjoys the day-to-day operations and customer service redefining success in the construction industry. You can find him operating a picker crane or walking a large project, educating the customer on the processes.

In his downtime, Frank helps in the family bake shop business or basketball with the kids in the backyard. With an unwavering commitment to those around him, his positive demeanour coupled with a resilient mindset, Frank has consistently delivered results in the community, family and business.

Hi There!

TEAM GOALS

EXCEPTIONAL CONCRETE REPAIR SERVICE

The Concrete Doctors redefine excellence in concrete repair, setting the gold standard in the industry. We are your trusted partner for all concrete repair needs, specializing in precision and durability. With a wealth of experience and a commitment to quality craftsmanship, we stand out as leaders in the dynamic world of concrete restoration.

POSITIVE CONSUMER JOURNEY

Our journey is built on a foundation of expertise honed over 20 years, establishing us as innovators in the field. Whether it's addressing cracks, replacing precast steps, reinforcing structures, or reviving worn surfaces, our team of skilled professionals brings unparalleled dedication to each project.

DELIVERER HIGH-QUALITY RESULTS

What sets us apart is our unwavering commitment to client satisfaction. We understand the importance of seamless, lasting solutions, and our work reflects the highest durability and aesthetic precision standards. From residential spaces to commercial complexes, we tailor our approach to meet the unique needs of every client.

SERVICES

CONCRETE STEP REPLACEMENT

Concrete step replacement comes in two forms. These are precast or poured-in-place. Depending on the process and access, it may be a one-day project or a complex situation that requires jackhammering, forming and pouring a new step. We will handle everything that is required from start to finish, even a new railing.

Condo Complexes

Residential Homes

Commercial Building

Apartment Buildings

Budget Range \$1900-3500

The Concrete Doctors have over 20 years of experience in this area of work, providing high quality service. Contact us for an onsite quote.

CONCRETE STEP REPAIR

A concrete step repair is often an option when the concrete is still in good shape and has not deteriorated beyond repair from de-icing materials or lack of upkeep. Depending on the process and access, it may be a one-day process or require multiple trips to complete the job correctly. Grinding and cleaning are often required before the polymer-modified high-strength materials are added. The process is finished with a sealing coat protecting your new overlaid area.

Budget Range \$1200-2000

SERVICES

CONCRETE REPAIR

Concrete repair can be necessary for a variety of reasons, such as repairing cracks, holes, or damage caused by wear and tear. There are several methods that can be used to repair concrete, depending on the extent of the damage and the specific needs of the repair services. The Concrete Doctors offer cost-effective repair solutions combined with clear communication.

Concrete Repair On All Concrete Surface

Concrete Lifting

Concrete Resurfacing

Cutting and Grinding Concrete

Budget Range - Scope Required

The Concrete Doctors will prepare an onsite quote and explain all the options available, providing education and insight on your best solutions.

CONCRETE LIFTING

The Concrete Doctors are determined to offer you a cost-effective solution to raising your concrete. We will provide insight and answers as to why it sunk. New concrete replacement can be more expensive than repairing your damaged concrete,

Our Sand, Clay, and Portland cement blend can raise your concrete to provide a stable, permanent solution. We offer a variety of mix designs to lift your concrete, completing the most stubborn jobs. The Concrete Doctors use experience and the right tools.

Commerical Building Floors

Budget Range \$900-3500

SERVICES

CONCRETE SEALING

Concrete sealing helps protect against damage from spalling, chipping, crumbling, moisture, stains and de-icing salt. There are many different types of concrete sealers, ranging from high-gloss surface film sealers to sealers that protect by penetrating the surface but don't change its appearance.

Sidewalks and Slabs

Steps and Parking Curbs

Exterior Buildings & Foundations

Driveways and Garage Floors

Commercial Concrete

Budget Range \$500-1500

The Concrete Doctors have helped hundreds of clients seal and protect all their concrete. Sealing is a vital part of lowering your concrete maintenance budget.

Please feel free to contact us for an onsite quote.

CONCRETE SANDBLASTING

Sandblasting and dustless concrete blasting are some of the many methods used to texture the surface or remove old wear layers. The amount of sandblasting needed will vary from light cleaning to a deep penetration that exposes the rock aggregates.

The exact distance of spray pattern for dustless and normal sandblasting depends on the pressure being used, the concrete matrix's hardness, and the abrasive's cutting ability.

SERVICES

CONCRETE CUTTING

Concrete cutting needs to happen for various reasons. Often, it is so that new construction can occur or the old concrete must be replaced. Whatever the case, The Concrete Doctors can help plan and provide you with the experience and skills needed to get the job done. Our background and knowledge is an asset when it comes to getting the job done on time and budget.

Replacement of Old Concrete

Utility Openings

Commercial Building Renovations

Sidewalk and Curb Replacement

Window and Door Openings

Our flat sawing services provide precise and efficient cutting solutions for various projects, including roadways, driveways, and warehouse slabs. Let us help plan your project so it goes quickly and smoothly with no issues. Please get in touch with us today for additional information.

CONCRETE OVERLAYS

Concrete resurfacing is an economical way to give your worn-out concrete surfaces a fresh new look. It involves applying a thin layer of specialized resurfacing material over the existing concrete surface. This process can be used to restore and repair damaged concrete surfaces, or simply to update the appearance of the concrete.
